Hermann Haus

Hermann Anton Haus, long-time member of our Association, died May 21, 2003, at 77 years of age. He was an Institute Professor at MIT and one of the world's leading authorities on optical communication.

Haus was born in Ljubljana, Slovenia, in the former Yugoslavia.

His Austrian family spoke German at home. When the German-speaking population was expelled from Yugoslavia in 1945, Haus and his mother fled to Austria with other refugees.

There he studied at the Technical University of Graz and the University of Vienna.

He came to the U.S. in 1948. After earning degrees from Union College and Rensselaer Polytechnic Institute, he received the Sc.D. from MIT in 1954, and joined the faculty.

He became a full professor in 1962, and was named an Institute Professor in 1986.

Our condolences go to his wife of 50 years, Eleanor,
as well as his four children and their spouses.
